To Whom it May Concern,

Upon discovering that our daughter had a learning disability, specifically dyslexia, and being overwhelmed with managing options and resources that needed to be available for her care, we were referred to Hamilton Education Learning Partners.

At our initial meeting, Faith quickly put us at ease with the process and assured us that we were not alone and our daughter would be okay. She immediately demonstrated a deep knowledge of the special education process and a passion for working with children and families. She explained the steps we needed to implement to assure that our child would receive the help necessary for her disability and effectively assisted us by drafting a plan for ongoing services that was adopted by our school district. We continue to use her as we navigate the process to assure that our daughter is meeting her goals and moving forward in her learning.

Her knowledge on all areas of special education matters is broad and she has an uncanny ability to make anyone understand the in's and out of special services including PPT's and IEP's.

Working with Faith gave us the confidence and support to advocate on our child's behalf. We *highly* recommend her services and encourage you to bring Faith on board as early as possible.

Please do not hesitate to contact me if you have further questions in this regard.

Thank you.

Cordially,

Cynthia Cartier
