

We know our daughter is on the right path with her education because we hired Faith to advocate for her. We're not where we need to be yet but Faith is right here with us, keeping tabs on every aspect of my daughter's needs. Before we consulted Faith, we thought we knew enough to advocate but there was a feeling of "what just happened?" every time we left a PPT. Reality is we didn't truly know how to advocate. We just didn't know the system and the laws. Faith is a wealth of information and truly knows the ins and outs of special education, being a special ed teacher herself. Without her, I know we'd continue to be lost trying to navigate the system and my daughter would continue to fall behind.
